SUMMARY

Senior Full Stack Engineer with 5+ years of experience building large-scale, multi-tenant SaaS travel platforms (B2B & B2C). Specialized in Angular, Node.js, REST APIs, RBAC, and pricing/wallet systems. Led end-to-end development of Admin and Consumer portals across flights, hotels, holidays, visas, ferry, and insurance modules. Proven experience mentoring junior developers and owning features from architecture to production.

WORK EXPERIENCE

EasyRes Travel Technologies Pvt. Ltd., Delhi

Software Development Engineer II (Full Stack) | Jul 2024 – Present

Frontend Lead / Full Stack Engineer | Jun 2022 – Jul 2024

- Led development of a multi-tenant SaaS travel platform supporting B2B & B2C users.
 - Designed and implemented RBAC for subscribers, agencies, agents, and consumers.
 - Owned end-to-end feature delivery (Admin → API → Consumer UI) for Holiday, Ferry, Visa, and Insurance modules.
 - Built agency-agent hierarchy, pricing markup rules, grade plans, and wallet systems.
 - Integrated third-party travel APIs for real-time pricing and availability.
 - Improved application performance by ~30% via Angular optimization and API tuning.
 - Mentored 3–5 junior developers, conducted code reviews, and enforced best practices.
-

VKREATE Software Technologies Pvt. Ltd., Jaipur

Frontend Developer | Jan 2021 – May 2022

- Developed and maintained production CRM dashboards using Angular.
 - Integrated REST APIs for real-time data visualization and reporting.
 - Improved UI performance and usability for business users.
-

Arden Telecom Pvt. Ltd., Jaipur

Software Engineer Intern | Jun 2019 – Oct 2019

- Assisted in development of internal tools using PHP, HTML, and CSS.
- Worked on dashboard modules and API integrations.

PROJECT EXPERIENCE

Travel SaaS Platform – B2B/B2C & Admin Portals

Tech: Angular, TypeScript, Node.js, REST APIs, SQL/NoSQL

Client: EasyRes Travel Technologies Pvt. Ltd. | Enterprise SaaS (Private Platform)

- Built a multi-tenant SaaS travel ecosystem with Master Admin, Subscriber Admin, and Consumer portals.
- Developed Admin modules for agency management, pricing, wallets, contracts, and CMS.
- Implemented booking flows for Flights, Hotels, Ferry, Holidays, Visas, Insurance, Airport Transfers.
- Acted as primary owner for Holiday, Ferry, Visa, and Insurance modules, coordinating with junior developers for implementation support.
- Integrated frequent flyer and traveler profile management for faster checkout.

Wallet Application (Angular & Node.js).js

- Built Angular wallet UI with NgRx and secured Node.js APIs using JWT.
- Managed transaction history and balances using MongoDB.

Flight Management (Angular)

- Developed flight booking UI with multi-stop itineraries and reporting features.

CERTIFICATIONS

- Angular – The Complete Guide (Udemy, 2021)
- Node.js Developer Path (LinkedIn Learning, 2023)
